

Conference program

09:00 – 09:05	Welcome talk			
	CHALLENGES OF THE MODERN SOCIETY			
09:05 – 09:15	Hamza Eren Dinç	Trabzon Science High School, Trabzon, Turkey	Primal Human in modern society	The aim of my speech is to compare primal human and modern human. These are just the same. These two people are struggling to be the one person. I don't think they are doing this successfully because they are completely different persons. But the society forcing them to be one person together and I am going to talk about these problems with many examples.
09:15 – 09:25	Piotr Domagalski-Nowak	Liceum Akademickie Da Vinci, Poznan, Poland	Will we be happy in 50 years? Demographic catastrophe	Coming soon
	ECOLOGY AND CLIMATE CHANGE			
09:25 – 09:35	Leszek Leszczyński	Liceum Akademickie Da Vinci, Poznan, Poland	The economical state of Alaska	The aim of my speech is to show how effected by global warming Alaska is and how it effects their economy.
09:35 – 09:45	Lila Gil Moretti	IES Eduardo Janeiro,	Put waste in the right place.	First of all, what's recycling? It's the process of converting waste materials into new materials and objects that would normally end up in landfills. What's the point? What happens if we don't recycle? Is daily

		Fuengirola, Málaga, Spain		recycling an important habit? Is it necessary? Where does our waste end up when we don't throw it in the bins?
09:45 – 09:55	Juan Antonio Pacheco Moreno	IES Eduardo Janeiro, Fuengirola, Málaga, Spain	Does tourism affect marine ecosystem?	As a person who has lived in Fuengirola all my life, I have always been on the beach, swimming in the sea, doing sandcastles or playing volleyball with some of my friends. So, I really enjoy spending time in our most iconic landscape, however, we are destroying this only because of money, we are sacrificing the well-being of our ecosystem by renting it to unconscious tourists. If we continue like this, by 2050 our beautiful landscape will be completely ruined.
09:55 – 10:05	Danylo Dubovyk, Maksymilian Sterna	Liceum Akademickie Da Vinci, Poznan, Poland	What is there to be done about climate change	The aim of our speech is to discuss climate change, comment on current initiatives, and to talk about what needs to be done to save our planet
10:05 – 10:15	BREAK			
	TECHNOLOGY			
10:15 – 10:25	Irena Yasvina	Daugavpils State gymnasium, Latvia	Artificial art: AI /almost/ revolution	Nowadays, AI can almost immediately create art by receiving a short description of an idea. This ability of neural networks had risen some concerns in art community. Artists are afraid of getting replaces and left out. Yet the question is: will AI art ever replace one made by a human being?
10:25 – 10:35	Sofía Padilla Rey	IES Eduardo Janeiro, Fuengirola, Málaga, Spain	Technology addiction and its consequences.	In this day and age, technology addiction is a significant issue that society certainly needs to see, as it is undeniably true that its consequences have a negative impact on our health and daily lives. The main objective of this speech is to spread knowledge to teens about the importance of self-restraint and a responsible use of technology.

10:35 – 10:45	Pinar Uzun	Trabzon Science High School, Trabzon, Turkey	The Art of Artificial Intelligence	The aim of my speech is to explore the limits of artificial intelligence. I want to talk about some artificial intelligence program: GPT-4, Midjourney, Dall-e... I want to compare human art and creativity with that of artificial intelligence.
IDEAS WORTH SPREADING				
10:45 – 10:55	Aaron Zhou Huang	IES Eduardo Janeiro, Fuengirola, Málaga, Spain	The importance of creating habits.	Habits take a noticeable importance in our lives and they are built throughout the years, they are very important whether they are good or bad.
10:55 – 11:05	Evita Gorenko	Daugavpils State gymnasium, Latvia	The impact of a disease on a person's identity	The impact of illness can be affecting not only physical health, but also emotional well-being, social relationships and even one's sense of self. The main aim of my speech is to raise the awareness of the existing issue. It is crucial to help people with disease by using right words of support and treating them as healthy people. My research is important step in forming a completely tolerant and inclusive society, research and data from survey can be used in future studies.
